

TRRS HELMET FOR SEASON 2020

We present the new **TRRS official helmet** for season 2020, *available 15 September 2019.*

SHELL: Made of high modulus fiber-glass. Using 2 shell mold SIZES for better comfort in each size group.

EPS PROTECTION: Expanded polystyrene in three densities with two shell molds. *

INTERIOR: Fully removable. Constructed in different densities of laminated foam, covered with hypo allergic COOLMAX® material for perfect comfort.

CLOSING: HEBO® EXCLUSIVE adjustable micro-drive quick-closing clasp system.

COOLING: Two front vents and two on the top with removable covers and four rear vent exits to supply internal cooling between the EPS and shell, creating a cooler feeling inside.

VISOR: Made of resilient ABS plastic, exclusive Hebo® aluminum mounting screws.

HOMOLOGATION CERTIFICATIONS: European 22 to -05 EC.

SIZES: Available in sizes: XS - S - M - L -XL

WEIGHT: 950 ± 50 gr.

** Expanded polystyrene (EPS) is an industry standard crushable foam, widely used in helmet liners*
