Greetings TRS-USA associates, fans, and clients.

TRS RIDERS WIN AT THE AMA-NATC SEASON OPENER

NATC-AMA USA National Championship round 1, Florida, May 21st 2016

SATURDAY - ROUND 1

TRS-USA ~ HEBO-USA **TEAM rider & brand representative, Jesse Wellenstein**, won the Expert Sportsman class with a score of 31 points (12 points in front of his nearest rival)

Having just received his TRS One in April, Jesse was able to get in some practice time, but this was his first actual competition aboard the 300cc TRS One!

Jesse took the lead on the first loop and scored the lowest loop scores in his class throughout the trial. On the second and third loop, he was the only rider to break into single digit loop scores with a pair of 9 point rides.

TRS-USA Dealer and TEAM Rider, Stuart Preston (Jack's Cycles) has won the SR50 class with a score of 42 points. (14 points in front of his nearest rival)

Stuart took the lead on the first loop and scored the lowest loop scores in his class throughout the trial. In addition, Stewart had the second lowest overall score for the day in the 'support classes'.

This week, Mr. Jordi Tarrés shared an image from the TRS factory. Step by step, they are increasing production capacity. - *Featured in this image from May 23rd 2016, are bikes that are prepared for Japan and the USA.*

Information about the specific models and when they will be available:

The factory is building 280cc in this month of May and the 250cc models are scheduled for production in June. Our first 280cc model is in transit to us now, for delivery to the customer.

About delivery dates for those who are already waiting for a new TRS motorcycle:

Our USA dealers continue to place orders with us for machines that are 'pre-sold' to their USA customers. To be absolutely fair to everyone, it is our policy to deliver machines in the same order as these orders were placed by our USA dealers. Therefore, these first new TRS machines arriving in the USA are being delivered to those dealers in that exact order, for delivery to those customers who were first in line.

With our commitment to good service, we will continue to ship these first allocations of pre-sold bikes to the USA by air-freight. *(Even though air-freight is very expensive, we have elected to do this to save time as ocean freight typically takes more than one month)* Once we begin to catch-up on the pre-sold machines, more will arrive via ocean freight. Common sense and many years of experience tells us that there may be some time before the new TRS machines are readily available 'on-demand' and 'in-stock' in dealerships here and abroad.

However, for your convenience, all of our USA dealers do have "demo-units" on-hand now for their customers to test-ride, and we are doing everything we can to obtain as many motorcycles as the factory will allocate to us. We much appreciate your kind understanding as the new factory begins to increase production capacity and deliver motorcycles to those distributors, dealers, and buyers around the World who are patiently waiting.

For your convenience;
